---

2) Cosa si intende per sicurezza delle informazioni; descrivi i principali tipi di attacchi informatici

---

3) Le piattaforme abilitanti nel piano triennale per l'informatica nella PA: quali sono e che funzioni hanno

---

A web portal is a specially designed website that brings information from diverse sources, like emails, online forums and search engines, together in a uniform way. Usually, each information source gets its dedicated area on the page for displaying information (a portlet); often, the user can configure which ones to display. Variants of portals include mashups and intranet "dashboards" for executives and managers.

## BUSTA 2

1) Illustrare una possibile architettura di un sito web

---

2) Descrivi le principali misure di protezione per la sicurezza informatica, definisci continuità operativa e disaster recovery.

---

3) il cloud per la P.A.: obblighi, tipologie, vantaggi e svantaggi

---
